A Stimulating and Active Teaching Environment

Our Children's Centre offers a wide range of high quality pre-school and childcare programs in Whistler. Our Centre follows the High/Scope curriculum approach to education, a unique process that has been tested and researched for over 40 years. The High/Scope approach focuses on "active learning" - the belief that children learn best through active experiences with people, materials, events, and ideas.

Mission

"It is our mission to offer quality programs in a licensed early childhood education setting; we are committed to providing a safe, trusting and respectful learning environment for children, families, staff, and families".

Vision

To have a solid reputation as the best, most innovative children's centre in the corridor; one that communities, families, and staff take pride in.

"It's great to work in a Centre that respects and regards ECE as highly as Whistler Children's Centre does."
